

LABELING NOTICE

All packaged food offered for sale in Utah shall be labeled in English. Such labels shall include the following information:

1. A fully descriptive product name;
2. An appropriate and accurate net quantity statement;
3. A complete listing of the ingredients in all foods consisting of more than one ingredient;
4. The name, street address, city, state, and zip code of the responsible company or person;
5. And, unless the company or product qualifies for an exemption, a nutrition facts statement.

Retailers who desire to sell packaged food products labeled in a foreign language may do so only when all required label statements appear both in English and the foreign language.

Packaged food products originating outside the United States must declare the country of origin in a conspicuous location on the label. If a domestic firm's name and address is declared as the firm responsible for distributing the product in the United States, then the country of origin statement must appear in close proximity to the name and address of the distributor and be at least comparable in size of lettering.

The smallest letter used for any required label information must measure at least 1/16 inch height. Any required information that is either in hand lettering or hand script shall be entirely clear and equal to printing in legibility.

Products shall be properly labeled by the timeframe indicated on the inspection sheet. Products that lack proper labels would be considered to be misbranded and could be taken off sale (embargoed).

If you have questions about this information, please call: 538-7159.
